For Immediate Release:

Northwest Medical Center Celebrates National Hospital Week

(Albany, MO) May 9, 2014 - "Celebrating Compassion, Innovation, and Dedication: The Commitment Continues!" That's the theme we are celebrating as Northwest Medical Center (NMC) joins health care facilities across the country in recognizing National Hospital Week, May 11th – 17th. Sponsored by the American Hospital Association, National Hospital Week honors the caregivers who make America's hospitals the best in the world.

During National Hospital Week, Northwest Medical Center will be honoring all of our 165+ caregivers who work hard to provide excellent care and service each and every day. Whether they provide direct patient care or work in a non-clinical position caring for those who do, all of our caregivers contribute to the health and well-being of our patients. To celebrate, NMC will be hosting various activities for our caregivers throughout the week to acknowledge their contributions and service to the citizens of the region.

"National Hospital Week, first and foremost, is a celebration of caregivers," NMC President and CEO, Jon Doolittle said. "We're extremely proud of each member of our staff and we recognize the important role they play in extending a sense of trust to our patients and our communities. Northwest Medical Center's caregivers are proud of the quality of life we enable in our hometowns and throughout our region. As the market rewards healthcare providers that deliver ever-increasing quality while reducing costs, we get to serve our region by investing in our people and innovating to become the ideal rural health home for those we are privileged to serve. This hospital week, we celebrate our great history and our exciting future."

About- Northwest Medical Center has provided high-quality health services to residents in Northwest Missouri since 1957. Along with five satellite clinics and a full-service home-health agency, Northwest Medical Center continues its tradition of community healthcare utilizing leading-edge diagnostic equipment and boasting one of the top emergency room facilities in the region.
